colorful Pop songs about togetherness  
in a fresh, creative style with good vibes

The German singer-songwriter Christiane Dehmer wrote songs about sticking together in these challenging times. With this release Christiane intends to spread the relevant message of social cohesion and solidarity worldwide, especially in current times of the global crisis.

### Original songs about hope and for spreading good vibes. A colorful Pop in a fresh, creative style.

A Pop with a pinch of electro, R&B style, and colorful harmonies. The piano harmonizes with Christiane's warm and unique voice. It complements the meaning of the lyrics. The versatile synthesizer sounds and grooves enhance the songs. Some people are reminded of Alicia Keys or Elton John's music listening to her album, but that doesn't describe enough Christiane's style of writing.

Christiane Dehmer is a passionate and enthusiastic pianist. She studied piano improvisation and accompaniment, jazz piano, jazz/pop composition, music theory, singing and music production. She not only wrote her songs, but also played, sung and produced them.

Christiane is known for both: singing and being a pianist. In the purely pianistic side of her career she created lyrical and touching instrumental pieces. Sometimes there are no existing words to describe certain emotions, that's why Christiane has found in music a language that expresses them in a most direct way possible.

Christiane „loves other human beings“ and she feels compassionate about their dreams and difficulties. During the Corona crisis, she started a series of online concerts to retrieve connection and inner peace among others. She created „music against fear“. After while she introduced words to her instrumental music, as right words in a right moment are needed to enhance the intensity of the musical message.

The material of this EP called „Zusammen“ contains 6 songs written in German. The album has been released in October 2020. After the positive resonance of this EP Christiane decided to publish it again with English lyrics, as a response to the requests of her international fans and social media followers.

**“Let’s stick together, because: TOGETHER we are stronger”**

The title song „**TOGETHER**“ is about being with each other even in dark times, remembering the beautiful experiences, and moving forward together. Together we are stronger, and together we can go more forward than we can imagine. We can only overcome the crisis through unity. Despite distance rules, we can find creative ways to live support and love each other.

“**I AM HERE**” was born out of a feeling of separation between friends. At the beginning of the Corona lockdown, it was not possible to meet friends. Knowing that some of her friends weren’t well, I felt sad not to be able to care for them properly. Who can be at the same time in different places...?

Out of this feeling the song „I AM HERE“ has been created: If my friends can not experience my physical presence, they at least can know that they are cared for in this way.

The dramatic groove of the song „**NO MATTER**“ underlines the statement of the song: it is important to remember that you go through life together, no matter what. The lyrics of the chorus “No matter what, I stand by you” have one more dimension: you can listen to your intuition, trust to and be patient with yourself having faith that even if you lost your direction and don’t know how to go on, when everything around you threatens to collapse, you can still rely on your inner power.

The final song of the EP is „**WISHES**“. Christiane wishes everyone, what you actually can not give yourself. In times of crisis, you often do not need special things, but what you really long for from the heart. This can be an upwind, a change, a passion that you like to live...

**Together we are stronger.  
Together we are able to stand tall.  
Living in harmony,  
embracing peace,  
carry each other,  
simply breathe...  
Together we are stronger.  
Together we are able to fly high,  
and visit places  
so far away  
that we never thought were real.**
